

*Assess your personal skills with a rating of 1-5 (5 best or high) for each item.*

General Skills:

- \_\_\_\_\_ Experience supporting Intel networks running Linux or Unix..
- \_\_\_\_\_ Experience supporting Windows 2003 servers, standard, web, communications, mail or enterprise.
- \_\_\_\_\_ Experience and competency loading, configuring, core internet software applications such SendMail or Apache web server.
- \_\_\_\_\_ Competency in network setup and configuration of notebooks for travel and network office use
- \_\_\_\_\_ Competency in establishing satisfactory customer relationships, documentation and followup.
- \_\_\_\_\_ Competency in configuring wireless enterprise solutions (WLAN and WAN) within and among buildings
- \_\_\_\_\_ Experience installing and configuring SQL and/or MS Access databases with web applications
- \_\_\_\_\_ Experience designing and configuring internet access, IP schemes, TCP/IP network gateways and routers.
- \_\_\_\_\_ Experience designing internet and web security devices and firewalls.
- \_\_\_\_\_ Experience supporting VOIP converged networks with either 3COM or CISCO telephony systems

Specific Skills:

- \_\_\_\_\_ 1. Understanding of network topology concepts and cable distribution including ethernet over both copper and fiber optic.
- \_\_\_\_\_ 2. Demonstrated understanding of TCP/IP design and routing schemes.
- \_\_\_\_\_ 3. Proficiency in the setup of Layer 2 and Layer 3 switches including VLANs and spanning tree.
- \_\_\_\_\_ 4. Experience in configuring Cisco routers including upgrading the IOS.
- \_\_\_\_\_ 5. Experience designing and testing a T1 installation from an ISP.
- \_\_\_\_\_ 6. Experience setting up a APC or HP rack cabinet with proper power and cable management.
- \_\_\_\_\_ 7. Demonstrated competency in installing groupware mail clients (such as Outlook, POP3, IMAP, Domino or GroupWise).
- \_\_\_\_\_ 8. Demonstrated competency in installing groupware application clients (such as FAXSERVE, MS SQL Server or Microsoft Exchange).
- \_\_\_\_\_ 9. Familiarity with core database products, functionality, and configuration (such as MS Access, MySQL or MS SQL) including the ODBC connectors.
- \_\_\_\_\_ 10. Ability to design, specify, and assemble a mid-size rack network application server and storage network.
- \_\_\_\_\_ 11. Knowledge and familiarity with Windows 2003 thin client server products including Terminal Server and/or Citrix products.
- \_\_\_\_\_ 12. Knowledge and experience with IIS 6.0, FTP and/or Apache 2.x web server applications.
- \_\_\_\_\_ 13. Ability to create or modify successfully DNS host tables.
- \_\_\_\_\_ 14. Knowledge and configuration experience with LDAP, active or netware directory services, DNS, WINS, and Hosts files.
- \_\_\_\_\_ 15. Acting as consultant for IP Routing, RIP, and IP design problems.
- \_\_\_\_\_ 16. Ability to use IP-based commands well: PING, FTP, TELNET, TRACERT etc.
- \_\_\_\_\_ 17. Ability to setup and maintain websites with design tools (HTML) such as FrontPage or Dreamweaver.
- \_\_\_\_\_ 18. Experience in providing technical support to users on above products. Remote management and assistance, RDP, VPN, RADIUS dial-in and LAN support skills.
- \_\_\_\_\_ 19. Ability to troubleshoot email problems in 15 minutes or less.
- \_\_\_\_\_ 20. Demonstrated excellent communication and documentation skills.
- \_\_\_\_\_ 21. History of punctuality and responsiveness to management meetings and assignments.
